## System Requirements:

This mod is made to be as play-able as possible. Performance wise, you need at least a Core i3 or better. If you need more to play, I recommend using the Dual Xeon CPUS because of less performance drops. Texture packs are recommended but not needed. The max texture count for this is 522. Everything else is just for fun. I will put up more details about things like recommended mods, etc. if needed. Have fun! -Strawberry Fields
