Despite the latest progress made by Microsoft in what operating systems are concerned, many users are still faithful to Windows XP for various reasons. However, the most stated and obvious disadvantage of this choice is the absence of certain perks of Vista and 7 such as transparency and other exciting visual effects. Fortunately, experimenting with these is still possible on Windows XP, with the aid of third-party software such as EuMAX Sev7n Inspirat Pack. This particular application will give you a taste of what Vista / 7 feels and looks like, with very little effort and without requiring advanced computer knowledge. First and foremost, in order to successfully install the software, the UxTheme.dll component needs patching; otherwise, none of functionality of EuMAX Sev7n Inspirat Pack will be available. You need not search manually for such solutions, since the ZIP archive in which the application installer is wrapped, already
